

# INDUSTRIAL

**CUSTOM VENTILATION DESIGN, FABRICATION & INSTALLATION**

Cedar Rapids • Quad Cities  
[www.climate-engr.com](http://www.climate-engr.com)

## WHO WE ARE

Established in 1947, Climate Engineers has developed a reputation for providing high-quality custom sheet metal fabrications. We have served the commercial and industrial markets for more than 40 years, providing timely delivery of the ventilation/HVAC, ingredient and material handling systems required by food, ethanol and other processing plants.

## EXPEDITING INDUSTRIAL INSTALLATIONS

Climate Engineers excels at providing ventilation solutions that meet the timelines and precise specifications required by the client. Project managers, expert CAD operators and experienced field foremen work together with advanced equipment to provide a precise, safe and quick solution. Clients avoid costly production delays because of Climate's coordinated effort at all levels.

## SAFETY SPECIALISTS

A priority on safety is critical to the successful execution of commercial and industrial projects. Numerous organizations have recognized Climate Engineers for maintaining excellence in safety and health. Safety and quality is a preeminent concern shared by all employees. It is monitored by an employee safety committee, which also facilitates the implementation of new programs and training courses.

## FLEXIBLE, DEDICATED STAFF

The Cedar Rapids and Quad Cities locations offer flexible shifts and facilities to ensure the ability to complete multiple large-scale projects simultaneously. We are proud of our company's ability to respond quickly to any client request and increase capacity as required. Our computer-aided estimating and CAD staff work together to minimize turnaround and anticipate issues that can arise on demanding industrial projects.

**Cedar Rapids / Iowa City: 319-364-1569**

## STAFF

- 2- or 3-shift operation
- ITI & AWS Certified Welders
- 4 CAD operators

## COMMON MATERIALS

*Many materials are in stock or available next day.*

- Carbon steel
- Abrasion resistant steel
- Aluminum alloys
- Stainless steel alloys
- Fiberglass reinforced plastic (FRP)
- Polyvinyl chloride (PVC)
- Polyvinyl coated steel (PVS)
- Galvanized
- Angle
- Tubing
- Angle rings
- Blast gates

## EQUIPMENT HIGHLIGHTS

- 25-ton overhead crane
- Rolling form: ½" carbon steel, 96" wide max.
- Burn table: 1.125" material thickness max.
- Press brakes
  - 350 ton, 14' wide (1)
  - 175 ton, 12' wide (2)
- Painting capabilities

## INDUSTRIAL PROJECTS

- Catwalks, platforms & ladders
- Exhaust systems
  - Acid scrubbers
  - Dust collectors
  - Filter systems
  - Odor control systems
  - Vapor & mist scrubbers
- Tanks
- Spouts

## CLIENTS

- Archer Daniels Midland Company
- Cargill
- Exide Technologies
- General Mills
- International Paper
- Quaker Oats
- John Deere
- DuPont
- Iowa Limestone

**Quad Cities: 563-285-7502**

"I have used Climate Engineers at a number of plants over the last 20+ years. They have been the preferred sheet metal contractor at every plant I have worked. The company is well organized and understands the unique challenges of completing industrial sheet metal work in a compressed schedule. Climate Engineers has an exceptional fabrication shop with stocked items for any situation that may arise.

Their team is talented, safety oriented, and prepared to meet anything the customer requires. I strongly recommend Climate Engineers."

- Plant Engineer at Grain Processing Facility

## OUR SERVICES INCLUDE:

- Industrial Ventilation & HVAC Fabrications
- Commercial HVAC Systems
- Commercial HVAC Service
- Manufacturing Fabrications
- Plant Maintenance
- Temperature Controls
